

Stack and Latch Delivery Systems

Our modular case systems are designed for enhanced functionality, offering greater efficiency and faster delivery. Available in both aluminum and stainless steel, these delivery systems lock together in a securely stacked arrangement, providing our customers with innovative design excellence.

BUILT FOR YOU

- Cases are available in aluminum and stainless steel as well as in various sizes and colors. Customized screen-printing is also available.
- Radel lid allows for visibility of the contents. Radel corners allow for modifications in manufacturing without additional cost.
- Available in two length and three height options.

WORKS WITH YOU

- The carrying handle is a simple latch design that reduces the risk of catching or tearing surgical gloves.
- When folded flat, the handles lock to hold the lid in place.
- Cases can also be stacked and locked onto one another, securing them for transport.
